Actually since this was oil and gas I gave it to Joe to review and he has signed off. However, I have comments from Janet. She has some concern that not all of her comments were addressed. For

example, on page 60 \$83.1 million is still in the clean version when Janet's comment suggested \$78.3 million. Are you and Claudia available to discuss.

Good morning Carissa,

Just checking in on the status of the review of this document. Any comments from Beverly yet and did the package make it into Janet's weekend folder?

Thanks much,

Dee

Thanks Claudia. Since the transmittal memo isn't on letterhead and OGC changed the title, can you please have a new memo drafted and signed?

I plan to give the package to Beverly tonight for review and hopefully to Janet on Friday for her weekend folder.

With regards to dates on moving the package, we should be able to have this sent to OP by next Wednesday and to OMB by Friday, May 13th (OP requests 10 days to review but typically review faster).

Let me know if you have any questions.

Carissa

Carissa,

Here is the proposed action for OAR's review, concurrence, and transmission to the Office of Policy for OMB review. OGC has concurred, as you can see in the attached email from Elliott Zenick below. Included are drafts of the NPRM, action memo, and fact sheet, revised versions from those sent on March 24th by Regina Chappell, as a result of OGC comments (including a change to the title of the proposed rule, which has been updated in ADP Tracker). Also included is the previously submitted OMB transmittal memo signed by the Region 8 Administrator. Please note that the OMB transmittal memo contains the earlier title of the proposed rule and has not been updated with revised nuances based on OGC comments. Let me know if you will need an updated OMB transmittal memo signed by the RA.

Below is a list of the names of everyone who has reviewed the NPRM. Janet McCabe provided a preliminary review and comments back in January. I have attached an earlier version of the NPRM that shows how we addressed Janet's preliminary comments. Much of the NPRM has been revised since then, so a document compare with the attached clean version would likely be very messy and not very helpful.

Jan Gilbreath, OP

Rick Vetter, OGC

Tod Siegel, OGC

Amy Branning, OGC

Debbie Jordan, OAR

Please let me know if you need anything else to move this action forward.

Thanks,

Hi Elliott –

Thanks again for looking at this. As discussed in our exchange of voice mails, attached is a cleaned-up version of the FIP that leaves your most recent comments and Claudia's responses so that you can quickly assess things. It's also on Sharepoint; if you need to make edits, Sharepoint would be the preferred approach, but if necessary feel free to edit this version and send back. But we hope that this addresses your comments sufficiently; if it does, would you let us know whether you concur? If you do, we'll send a cleaned-up version to OAR for Janet's review.

Thanks again for your help. (And my thanks to Claudia for doing all the work on this end.)

Mike
